Professional Summary

Interdisciplinary engineering student with practical experience in project management, operations and manufacturing environments. Worked on agile intralogistics optimization with Jira, WAMAS and TIBCO Jaspersoft, supported by KPI work and data analysis in Excel and Power BI. Combines analytical thinking, structured coordination and process-oriented problem solving across international, production-focused and consulting-oriented settings.

EXPERIENCE

Project Management Intern

Aug 2024 - Feb 2025

SSI Schäfer - Eskilstuna, Sweden

- Led an agile project to optimize an intralogistics system using Jira for planning, coordination and progress tracking.
- Used WAMAS and TIBCO Jaspersoft in project management activities for logistics workflows and reporting.
- Coordinated cross-functional teams to address logistics challenges and support structured project execution.
- Analyzed data with Excel, Power Query, pivot tables, VLOOKUP and Power BI to support project decisions.
- Developed and evaluated relevant KPIs to improve process transparency in the intralogistics context.

Vacation Employee

Jul 2025 - Sep 2025

Mercedes-Benz - Böblingen, Germany

- Performed visual quality checks on seat cushions to support manufacturing quality standards.
- Assembled seat cushions onto seat frames within a continuous production process.

Senior Consulting Engineer

Jul 2023 - Sep 2023

ESB Business School - Reutlingen, Germany

- Strategic Business Development
- Market Analysis
- Process Optimization
- Stakeholder Communication

PROJECTS

- IP-Plane Student Engineering Project: Student project work involving agile project methods and 3D model construction. Tools: Scrum, Kanban, CAD Creo
- Restaurant Order Management Web Application: Designed and developed a digital ordering solution to optimize restaurant operations and customer experience using AI-assisted development.

EDUCATION

M.Sc. Interdisciplinary Product Development Reutlingen University | Mar 2026 - Expected Jul 2027

Focus: product development, manufacturing and process optimization.

B.Eng. International Project Engineering Reutlingen University | Aug 2020 - Feb 2026

GPA: 2.7 | Focus: Agile Project Management, Project Budgeting Controlling, CAD, Project Planning, Engineering Projects.

SKILLS
